CAT GC SERIES · 50 Hz · DIESEL GENERATOR SET

Cat DE1100 GC 1,100 kVA

Image is representative.

1,100 kVA
Standby power

880 kW
0.8 power factor

Cat C32B
Engine

6,749 kg
Dry weight (max.)

High power for large hotels, hospitals and critical facilities; the core unit of multi-generator synchronised systems.

Quotes: +90 539 101 38 03 · info@jutekglobal.com

Generator set

Power (standby)	**1,100 kVA / 880 kW**
Frequency / speed	**50 Hz / 1500 rpm**
Voltage	**400 – 415 V**
Phase / power factor	**3-phase / 0.8 pf**
Control panel	**GCCP 1.3**
Alternator	**Cat SR500**
Emissions	**Low fuel consumption (low BSFC)**
Ambient temperature	**Up to 50 °C**

Engine

Engine	**Cat® C32B**
Configuration	**V-12, 4-stroke, water-cooled diesel**
Bore x stroke	**145 x 162 mm**
Displacement	**32.1 L**
Compression ratio	**15.0:1**
Aspiration	**Turbo, air-to-air aftercooled**
Fuel system	**Electronic unit injector (EUI)**
Governor	**Electronic – ADEM™ A4**

Dimensions and weight (max.)

Length	**4,175 mm**
Width	**1,856 mm**
Height	**2,218 mm**
Dry weight	**6,749 kg**

Standard equipment

- GCCP 1.3 generator control panel
- Cat electronic governor (ADEM™ A4)
- Cat SR500 alternator (class H insulation)
- Skid-mounted radiator with guarded fan
- Steel base frame (skid)
- 24 V battery, rack and cables
- Dry-type air cleaner
- Cat® Product Link™ remote monitoring
- Caterpillar yellow paint

Optional equipment and JUTEK solutions

- GCCP 1.4 control panel
- Remote monitoring software
- Engine jacket water heater
- Dual-element air cleaner
- 4-pole circuit breaker
- Double-wall fuel tank
- Cat GC sound-attenuated enclosure
- CE / EAC / GCC certification
- ATS transfer panel (JUTEK)
- Synchronising panel (JUTEK)

Technical data is based on Caterpillar publications, is for information only, may vary with configuration and is confirmed at quotation. kW values at 0.8 power factor. Images are representative. Cat® and Caterpillar® are registered trademarks of Caterpillar Inc.
